HARRISON THOMPSON.

Color, dark brown, age 27, weight about 160 lbs., height 5 feet 10 or 11 inches, large scar on the left side of neck, beginning about the base of the ear, running down and around his neck almost to his chin---his mouth is drawn towards the right side of face, causing him to carry his head a little to that side. The scar is rough, and repulsive in appearance, and was caused by an operation for a tumor; there are several smaller scars or welts showing above the collar on the same side of neck of the large scar.--- Usually works as a farm hand, sometimes as a butcher. Is very fond of baseball.

This man is well marked and easily identified. Arrest and wire.
